

Lake Cumberland Tree Canopy

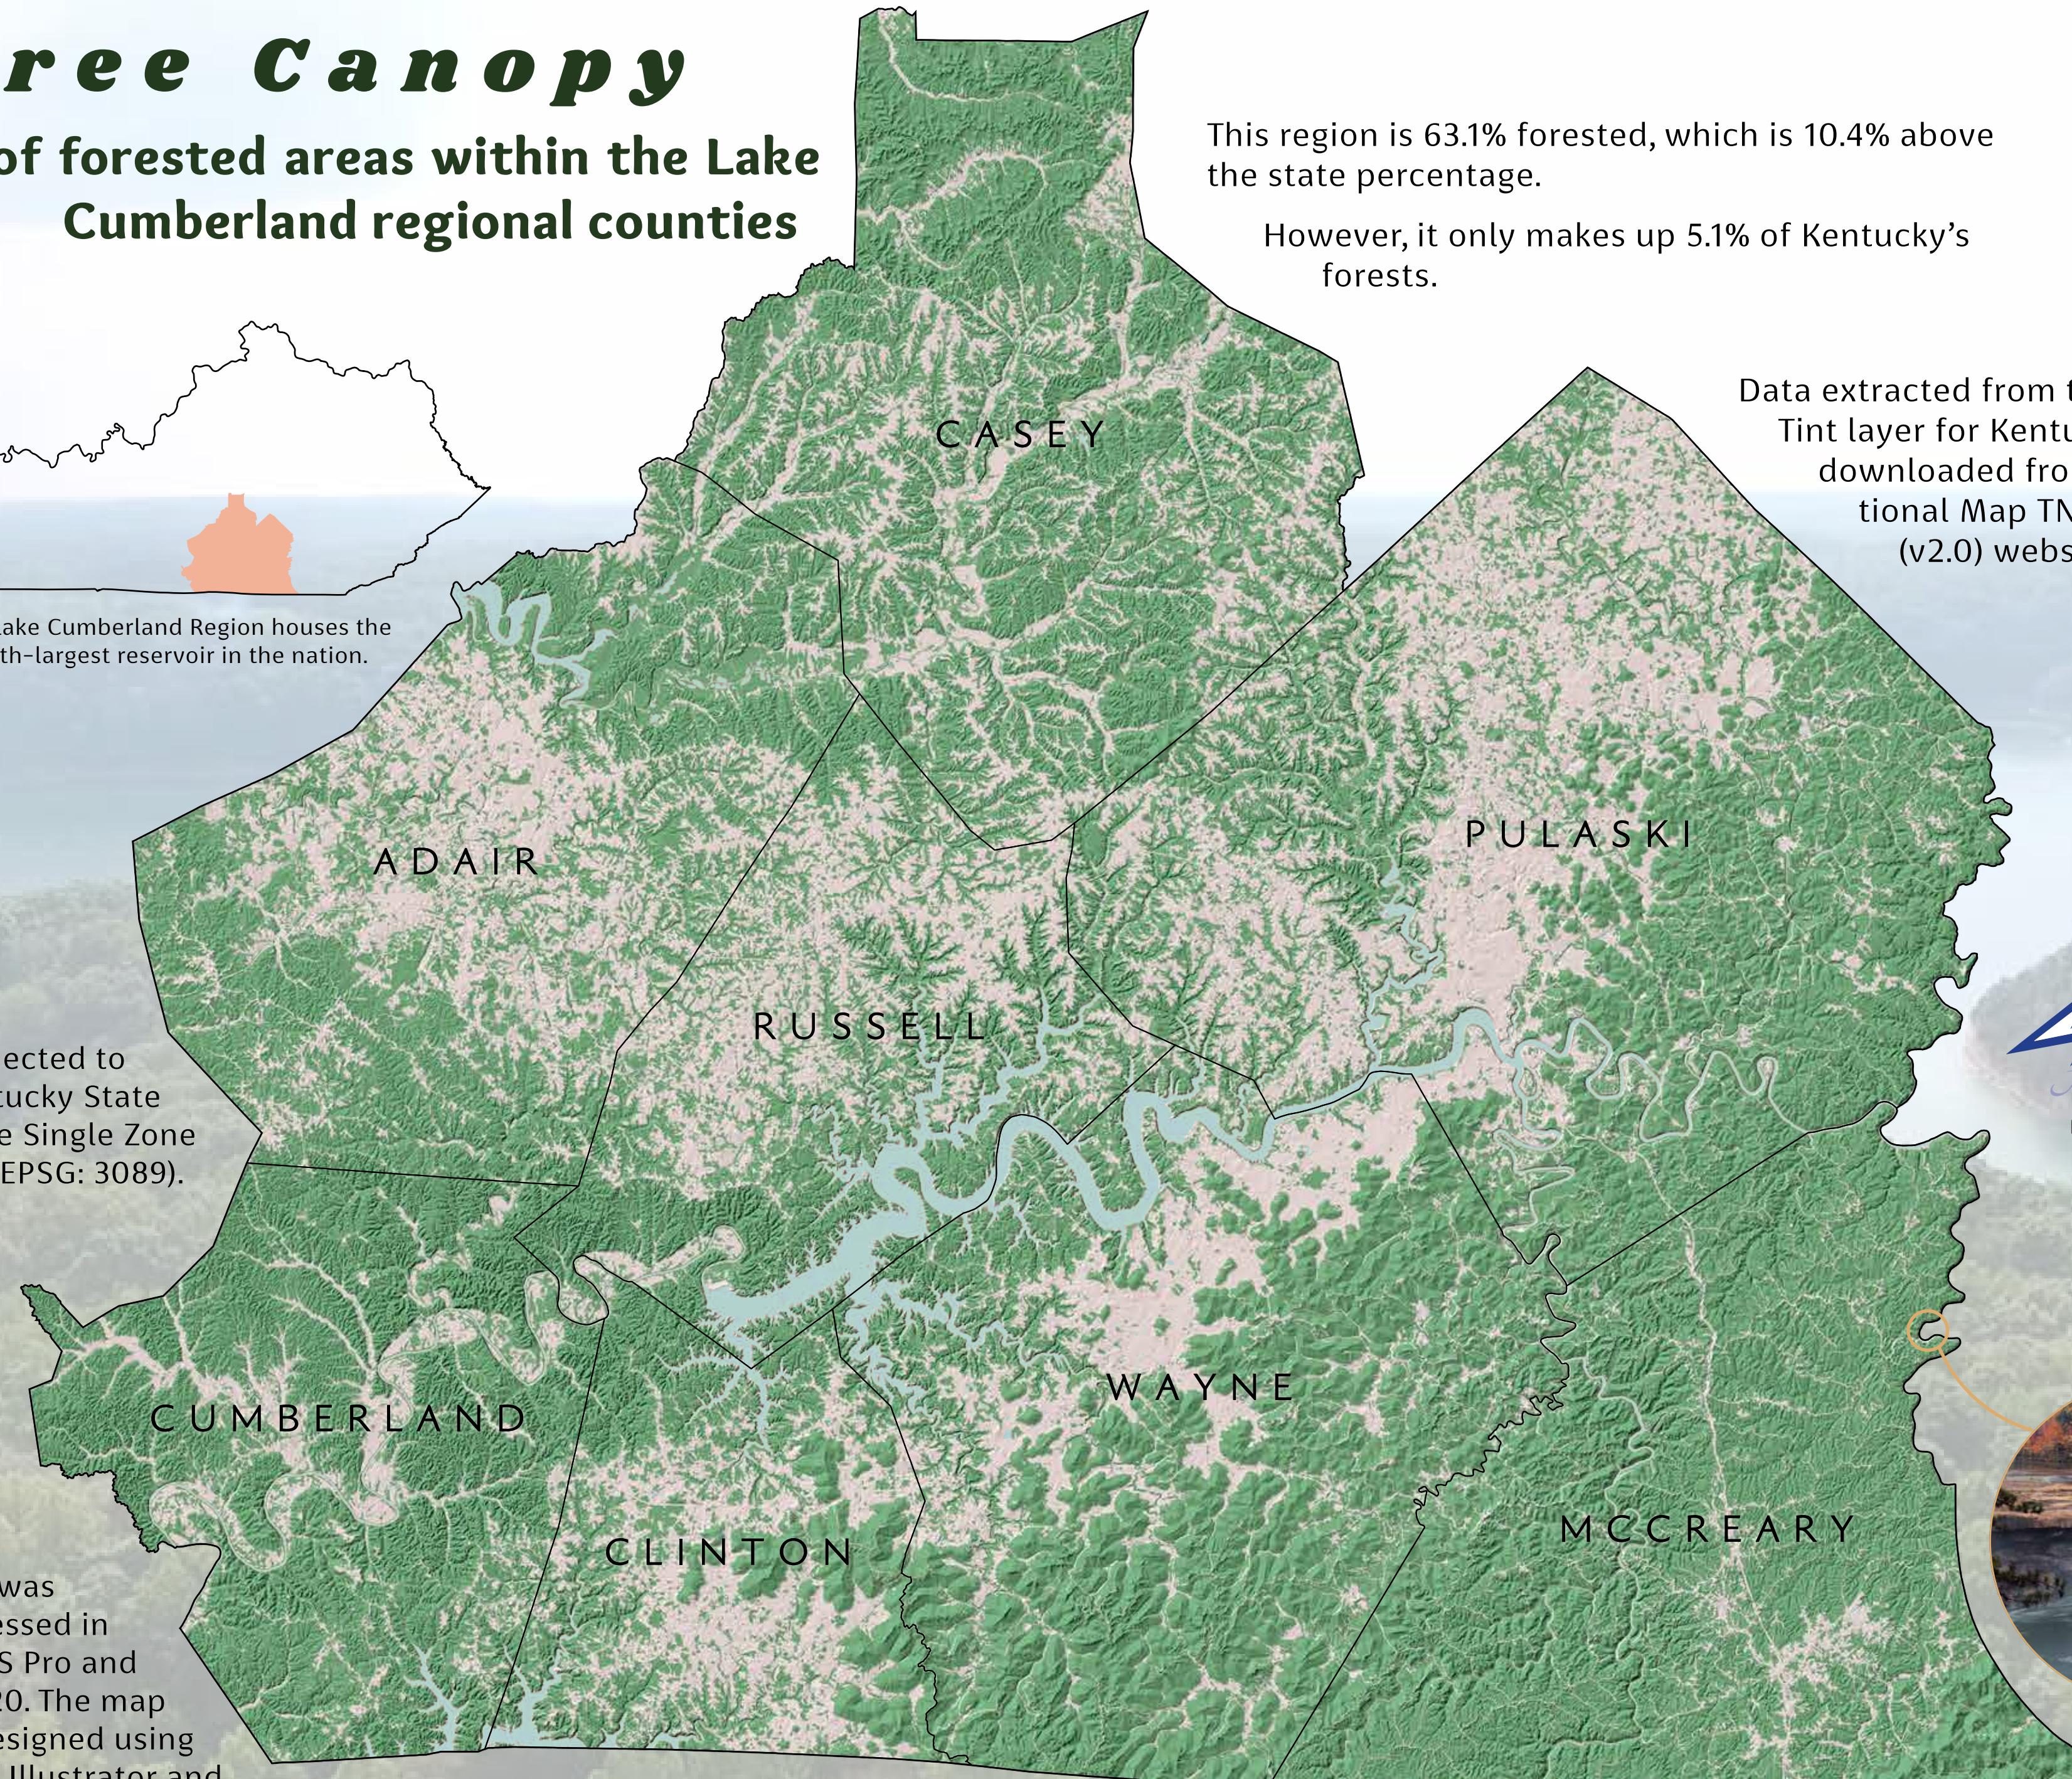

Extent of forested areas within the Lake Cumberland regional counties

The Lake Cumberland Region houses the ninth-largest reservoir in the nation.

Map Projected to the Kentucky State Plane Single Zone (EPSG: 3089).

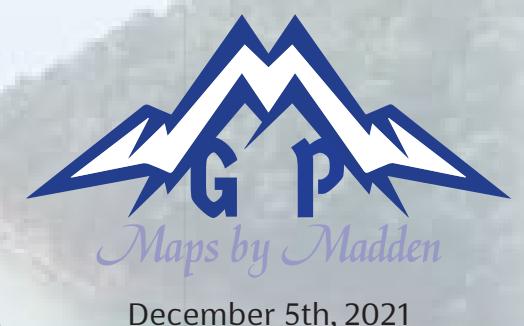

Data was processed in ArcGIS Pro and QGIS 3.20. The map was designed using Adobe Illustrator and Photoshop.

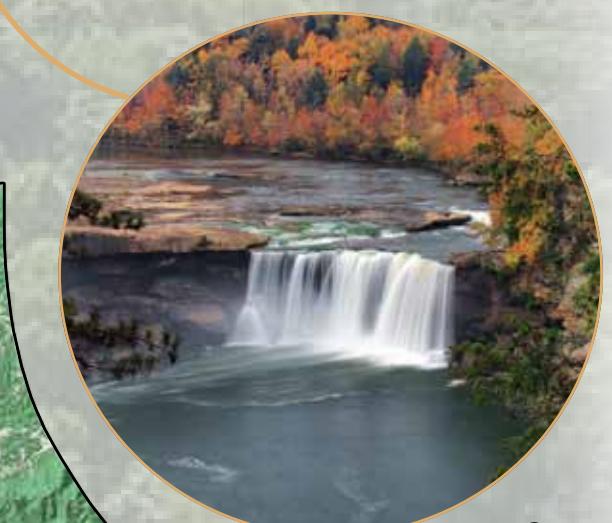

This region is 63.1% forested, which is 10.4% above the state percentage.

However, it only makes up 5.1% of Kentucky's forests.

Data extracted from the Woodland Tint layer for Kentucky and downloaded from The National Map TNM Download (v2.0) website.
